Dear Carolina

TESTIMONIAL

We would like to put on record our appreciation of the work done by you and your team for our recent office at Ubi Techpark.

You have addressed our concerns satisfactorily, offering workable alternatives prior to fabrication and construction. In the midst of carrying out the task, you have also taken into consideration our timeline and special fengshui requirements.

As far as the workmanship for the entire project is concerned, I am satisfied with what I see. Every customized item was made according to specifications. Rectification requests were also attended to promptly.

Studio 2 has made the whole project convenient to us by offering a one-stop hassle free deal. I will have no hesitation in recommending their services to anyone.

Yours sincerely,
Mini Toons Pte Ltd
