Dear Carolina

Just wanna share how we feel about the renovation works you have done for Lily & I.

We would like to start by thanking your studio for making our 2-room apartment much more spacious than we could imagine.

Your team's creativity and ability to make use of the limited space and weird corners, and converting them to proper storage space has really helped us, especially with Zac having more and more toys and clothes to his collections.

We are also impressed by you and your partner's willingness to shop tirelessly with us, even during weekends, to help us find what we needed to stay within our furnishing budget.

The craftsmanship of your guys does not provide a chance for any adverse comments.

Lily & I are really delighted with what you have made of our apartment. We are thankful to have used your service and would not hesitate to recommend Studio 2 to everyone we know.

To your team - many more successes to come!

Yours sincerely
