Dear Carolina,

We wish to express our appreciation of the work you and your team achieved in the renovation of our home in Holland Road and Dr Wang's clinic at Gleneagles Medical Centre. We are very pleased that you and your team could realize the aesthetic potential of our place and at the same time fulfil the specific requirement of our members. We were very impressed with the final presentation of our brief to you- expand the living spaces and highlight the panoramic greenery.

Your work with the clinic, although limited in scope, refreshed its appearance spectacularly. The artistic design of the doors and the colour scheme did wonders. There was much praise from my many delighted patients.

We wish you and your colleagues another successful year ahead

Yours sincerely

Mrs Wang Kuo Weng

Dr Wang
